Comprehensive  
Health Services

## Comprehensive capabilities

Comprehensive Health Services offers a wide selection of environmental health and safety services addressing the mandates of OSHA, EPA, NRC, and other federal, state and local agencies to promote a healthier work environment. Our experience in the broader context of occupational health enables us to excel at identifying and reducing health risk factors in the workplace. Our expertise in understanding standards and reporting makes us a valuable resource for achieving and maintaining compliance.

We address specific business and organizational needs with customized solutions that reward employees with better health, and organizations with easier compliance, lower risks, higher productivity and better community relations.

## Services formulated around the individual needs of each organization

Each workplace is unique, and we work hard to customize programs that provide the optimum result and return. When applicable, CHS partners with organizations' own internal safety and/or industrial hygiene staff to assess the work environment, screen employees and monitor health issues. We help anticipate, recognize, evaluate, and reduce risks within the workplace, and can design mitigation programs that include surveillance, safety training and medical monitoring. If necessary, we can act as liaison with federal and state regulatory agencies for standard interpretations.

Partnership with CHS is a major step in achieving compliance with regulatory agencies. CHS uses well-defined performance standards derived from decades of experience with the nation's largest companies and federal agencies. Our environmental health and safety services address most of the major regulatory initiatives as well as the unique requirements of specific groups:

- Occupational Safety and Health Administration (OSHA)
- Nuclear Regulatory Commission (NRC)
- Environmental Protection Agency (EPA)
- United States Air Force (USAF)

- National Aeronautics and Space Administration (NASA)
- Department of Transportation (DOT)
- National Voluntary Laboratory Accreditation Program (NVLAP)
- National Institute on Drug Abuse (NIDA)
- Food and Drug Administration (FDA)
- Health Insurance Portability and Accountability Act (HIPAA)
- Numerous state regulatory agencies

A sampling of our services includes:

- Environmental Services
  - Planning and management
  - Sampling analysis and monitoring
  - Environmental assessments
- Industrial Hygiene and Safety
  - Safety audits and training
  - Noise exposure evaluations
  - Indoor air quality evaluations
  - Ergonomic surveys
  - Chemical and particulate evaluations
  - Ionizing and non-ionizing radiation assessments
  - Respiratory protection
  - Confined space evaluations

CHS programs can be offered individually or combined to provide employers with seamless solutions for wellness, industrial hygiene and safety. Our programs will also provide employers with greater control over workplace health costs and help ensure regulatory compliance.

## Professionals with a proven track record in reducing risk

CHS environmental health and safety staff includes highly qualified professionals:

- Certified Industrial Hygienists (CIH)
- National Registration of Radiation Protection Technologists (NRRPT)
- Certified Laser Safety Officers (CLSO)
- Registered Professional Geologists (PG)
- Certified Hazardous Materials Managers (CHMM)
- Certified Safety Professionals (CSP)
- Licensed Asbestos Consultants (LAC)
- Certified Occupational Hearing Conservationists (COHC)
- FDA Certified Trainers in Food Safety Inspections
- Visible Emissions Evaluators (VEE)
- Certified Professional Environmental Auditors (CPEA)
- Medical Review Officers (MRO), Registered Nurses (RN) and Nurse Practitioners (NP)
- Advanced Practice Nurses (APRN) and Occupational Health Nurses (OHN), often board certified in occupational health nursing (COHN and/or CMM or CM Case Management)

Recognition and awards received by us or our clients include:

- OSHA Best Practices
- VPP (OSHA's Voluntary Protection Programs) *Star Award* for Industrial Hygiene program at NASA's Johnson Space Center
- American Association of Occupational Health Nurses, Inc. (AAOHN) *New Investigators Award* Recipient
- American College of Occupational and Environmental Medicine (ACOEM) *Corporate Health Achievement Award* Charter Sponsor
- Occupational and Environmental Health Foundation (OEHF), Member of the Founder's Circle

## A proven approach to a safer workplace

By virtue of our comprehensive approach to employee health, CHS is qualified to address all the factors influencing a healthier workforce: employees' work environment, individual health history and workforce risk factors. Our flexible offering of services allows us to provide precisely the mix of environmental health and safety services for an organization's unique needs, and our highly trained staff of CHS professionals, working within a proven set of best practices, provides an excellent return on organizations' investment. With nationwide resources already in place, CHS is uniquely positioned to respond to environmental health and safety issues that arise, no matter what the source, on nearly any scale.

Every CHS facility combines individualized attention with nationwide expertise. Over 30 years of experience serving the largest organizations in the public, private and government sectors provides us with the tools and best practices to help deliver:

- Lower employee health costs
- Increased workforce productivity
- Fewer lost workdays
- Healthier, more stable workforce
- Lower disability claims and costs
- Deserved reputation as an employer of choice
- Strengthened bottom line

# About CHS

Founded in 1975, Comprehensive Health Services, Inc. (CHS) is a leader in the management of nationwide workforce health programs. We offer major corporations and government agencies flexible, customized employee health services, from pre-placement and fitness-for-duty exams to workers' compensation, disability and case management, medical surveillance, and wellness and health promotion programs.

CHS is the only major firm with a broad, three-fold service delivery capability—worksite health programs, an extensive national network of health care providers, and medical readiness teams. This approach enables us to build the most flexible and ideal workforce health programs to fit the special needs of each client's workforce demographics, health risks, and productivity goals. *Our services are available individually, in clusters, or as a single, comprehensive and seamless employee health program.*

- Onsite Health Centers
- Medical Exams
- Wellness and Health Promotion
- Absence Management
- Environmental Health and Safety

We partner with our customers to understand their businesses and build customized solutions that put employees first. CHS' proactive, comprehensive approach—refined by best practices built on decades of experience—helps customers maintain a healthier, more stable and productive workforce.
