

Onsite Health Centers

Addressing cost containment with
strategic, custom onsite facilities

Comprehensive
Health Services

Taking control of your most critical costs

Comprehensive Health Services staffs, operates and manages onsite health centers across the country. We customize strategic employee health care solutions for the individual needs of each customer for every site in an organization, based on our in-depth analysis of real business needs. By aligning medical goals with business strategies, CHS Onsite Health Centers can deliver results that are visible both within your organization and on the bottom line.

We believe in the concurrent treatment of workforce and individual health issues. CHS Onsite Health Centers are designed to provide the most accurate and effective responses possible to illnesses and injury originating either within or outside the workplace.

CHS Onsite Health Centers offer solutions that address the following workforce health issues faced by employers:

- Improved employee productivity
- Reduced absenteeism
- Better control over health care costs
- Worksite injuries and illnesses
- Patient care management
- Medical surveillance and compliance
- Wellness and prevention programs

Onsite health centers can boost convenience for employees, lower costs through reduced absenteeism, ensure a safer workplace and give every organization the unmistakable competitive advantage of a clearly healthier workforce.

Staffing

CHS starts with an analytical framework to customize an onsite program to fit each location, precisely matching needs with personnel. The health centers we staff, operate and manage can be as simple as an equipped medical exam room and office staffed by an occupational health nurse, or as comprehensive as full service clinics. Onsite staff can include any combination of the following:

- Physicians
- Nurse practitioners (NP), Physician Assistants (PA), Registered Nurses (RN), and RN Health Coaches specializing in primary care and occupational health
- Health technicians, including laboratory and radiology technologists
- Medical records specialists
- Information technology specialists
- Workers' compensation case managers
- EAP specialists
- Industrial hygienists
- Administrative support

Services spectrum

CHS matches health services to the needs of each workforce. With HybridHealthSM, CHS' expanded onsite model, services include a broad range of treatment and prevention programs focused on acute and chronic health conditions.

- Expanded provider/primary care services
- Onsite health coaching
- Wellness and prevention programs
- Injury treatment and management
- First aid and emergency response
- Biometric screening programs, including lab work from prescribing providers
- Pharmacy utilization control programs
- Referral management
- Immunizations, vaccinations, and allergy shots
- Travel medicine programs
- Acute symptom treatment and management
- Case management
- Population health risk analysis and outcomes reporting
- Mandatory surveillance programs management
- Environmental health and ergonomic program support

The CHS Onsite Health Center advantage

An onsite facility must make sense on the bottom line. Our in-depth analysis of each organization's needs enables us to make every onsite health center an ideal strategic fit from a business perspective. Our complete staffing management system supervises every activity, establishing the most effective practices and protocols, including:

- Partnering with clients' internal management efforts –including Six Sigma and Lean programs, internal audits, etc.
- Networking with outside workers' compensation providers, personal physicians, other health care providers or CHS-credentialed network physicians
- Managing quality control and ensuring regulatory compliance

By profiling an employee population and its environment we can identify and address risk factors. Our trend analysis helps identify risks, to start reducing medical costs. CHS' proactive approach aids in early detection of health issues, decreasing medical treatment costs, speeding recovery and potentially saving lives. By tracking the encounters with each employee over time, we build a comprehensive, long-term view, considering the sum total of all relevant medical issues to better improve the health of the employee as well as the overall workforce. Plus, the standardization we offer in protocols and procedures helps mitigate medical and legal risk.

Every CHS facility combines individualized attention with nationwide expertise. Over 30 years of experience serving the largest organizations in the public, private and government sectors provides us with the tools and best practices to help deliver:

- Lower employee health costs
- Increased workforce productivity
- Fewer lost workdays
- Healthier, more stable workforce
- Lower disability claims and costs
- Reputation as an employer of choice
- Strengthened bottom line

About CHS

Founded in 1975, Comprehensive Health Services, Inc. (CHS) is a leader in the management of nationwide workforce health programs. We offer major corporations and government agencies flexible, customized employee health services, from pre-placement and fitness-for-duty exams to workers' compensation, disability and case management, medical surveillance, and wellness and health promotion programs.

CHS is the only major firm with a broad, three-fold service delivery capability—worksite health programs, an extensive national network of health care providers, and medical readiness teams. This approach enables us to build the most flexible and ideal workforce health programs to fit the special needs of each client's workforce demographics, health risks, and productivity goals. *Our services are available individually, in clusters, or as a single, comprehensive and seamless employee health program.*
